

They've had 147 plastic surgeries!

SHE'S SO OBSESSED

For the past 10 years, Cindy Jackson (cindyjackson.com) has held the Guinness World Record for the most cosmetic procedures — 100! “I’ve had 14 full-scale operations,” Cindy tells *In Touch*. They include four face-lifts, three breast-implant surgeries and two nose jobs. “I wanted to look better,” Cindy, 54, says. Though she has no new surgeries planned, Cindy’s a big fan of Strawberry, a laser lipo system that is less invasive than traditional liposuction and only available in the U.K. “I’m careful about what I do, I never want to go too far,” she says.

HE'S NOT DONE YET!

After undergoing 47 procedures and spending \$300,000, Hollywood celebrity hairstylist Steve Erhardt isn't satisfied. “I am planning a cheek-lift and dental veneers in early 2010,” he tells *In Touch*. Steve, 51, started having plastic surgery at 22 and insists he doesn't have body dysmorphia. “That is for people who really hate themselves and how they look,” he explains. “I have always loved myself and wanted to look a little bit better.” As he gears up to go under the knife again, Steve is promoting his new hair care line called Hollywood Secrets.
